The CIS and the Baltic States in Chinese global policy

After the Soviet Union disintegration China, like other leading world powers, began to construct relations with states of post-soviet space and carry out large-scale penetration to their economics and politics. The priorities and methods of Chinese external strategy in the beginning of 21st century seriously differ from USA and EU methods. This study shows the way of Chinese influence to the development of the region and to the interests of Russia 7

International Policy

Abaev L. Ch. Crisis and conflict modeling in international relations: practical application

The study represents the results of the practical application of modeling methods used to analyze crises and conflicts in international relations. The Analytic Hierarchy Process is used to analyze possible Russia's strategies towards Japan over Southern Kuril dispute 57

Defence and Security

Novikov V. E. Current state and prospects of the Missile Technology Control Regime

The longstanding political and military conflicts in the several regions of the world and fast development science and technology create objective prepositions for proliferation of the WMD. In terms of military the missile delivery vehicle is the most affective tool. But Missile Technology Control Regime survives hard times and its future is unclear 73

Komissina I. N. Synthetic drugs – a new threat to humanity

UN expert body expresses concern over the current global trend in drug abuse when traditional plant drugs are being substituted by their synthetic analogs, which are much more dangerous to human beings. Modern drug market trends in Russia pose a serious threat to public health, economic prosperity, social progress and national security 92

Economy

Kharlamova J. A. The role of the railway complex in the development strategy of modern Russia

The role of the railway complex of modern Russia in the national economy and geopolitics is analyzed. Special attention is given to the key problems of developing Russian state rail freight strategy and to a range of priorities and management decisions on the way of strengthening international positions of corporation RZD 113

Streltsov A. A. Energy policy of Canada

Canada, with its highly-developed economy, continues to rely on conventional energy resources, chiefly on gas and oil. It plans not only to cover its own needs, but maintain the considerable USA market share and enter the new CNG market 129

History

- Smolin M. B.* Alexander Alexandrovich Bashmakov, Stolypin's ideologist
The article deals with biography and works of Alexander Alexandrovich Bashmakov (1858–1943), the representatives of conservative thinkers of the late 19th – the early 20th centuries, who held the post of Chief Editor of the "Governmental Herald" under the P. A. Stolypin's premiership **149**

- Shornikov P. M.* Mass displacement of Bessarabian population in the beginning of World War II
After the reunification of Bessarabia and Northern Bukovina with the USSR in June 1940 Romanian functionaries started fleeing the region while native population got repatriated from Romania. At the same time the repatriation of Bessarabian Germans to Germany is more likely to be regarded as deportation. It was inevitable during the wartime, but could have been less damaging for social and political spheres **159**

Polemics

- Bondarev N. V.* "Yugo-sphere": the new vector of European integration or political fiction?
The term "Yugo-sphere" as referred to the Western Balkans emerges into the political vocabulary more frequently. What are the origin and the meaning of the term? What does it mean for the states of the former Yugoslavia? Can it affect the future of the region? **172**
