RISS Reports

Is the Future of Globalization under Threat?

The report observes the development of globalization phenomenon through the Modern and Contemporary times. The focus is on the current situation. The authors point out that since the end of 1980-ies the globalization progress has been intermitted by occasional protectionist moods risings in several countries. The article also notes the globalization's influences on main powerhouses of the world economy – the USA, the EU, and China, – and their diverging stances on that phenomenon.

Keywords: *globalization – the world economy – protectionism – free trade* 11

International Policy

Alkhimenkov M. A. The American Messianism's Influence on D. Trump's Views and Policies.

The article analyses the role of four different ideological concepts in relation to the president's interaction with the U.S. political and civil societies. The focus is on the religious foundations of the Republican Party's ideology and on the discussion of the "American dream" concept between D. Trump and the Democrats. The author notes that the competition between diverging views on the aforementioned concept contributes to rising alienation within the American society.

Keywords: *American messianism – the foreign policy of the D. Trump administration – the "American dream" – a city upon a hill – the U.S. Republican Party – "Trumpism" – right wing populism – "Reiganism" – the Evangelical Christians* 57

Malek M. Austria's Internal Security Challenges.

The article presents a review of Austria's internal security issues. The country's size and role in the world politics are relatively small but its security problems are typical for many European Union member-countries. The author suggests the wide understanding of the "security" definition. That includes not only the "hard" security, provided by army and police, but also demography, education, social benefits, and other factors.

Keywords: *Austria – politics – security – refugees – migrant crisis* 73

Tikhonova S. V. The Evolution of Germany-Poland Adversary
in the Context of Pan-European Energy Matters.

The article observes the evolution of Germany-Poland relations within the framework of Pan-European energy matters. Reasons for an increased level of the countries' conflict potential and risks ensuing for Pan-European affairs are analyzed here. The author studies gas projects promoted by Berlin and Warsaw and possible consequences of their realization for the European customers. An outlook of perspectives for the Germany-Poland energy cooperation summarizes the article.

Keywords: *Germany – Poland – the EU – European integration – energy sector – the USA* 89

Defense and Security

Yakimova E. A. The Transformation of Israel's
Views on Its National Defense Strategy.

The author approaches the Israeli national security conceptual specifics. The article contains an analysis of basic documents and summaries of special commissions' recommendations on the strategic planning reforms and on reallocation of powers between the Israeli military and politicians, dealing with military operations decision-making. The focus is on the acting IDF chief of the general staff G. Eisenkot's affairs and the first publication of the IDF strategy.

Keywords: *Israel – national security concept – military planning – the Israeli Defense Forces (IDF) – the IDF strategy – the "Gideon" Plan – the national security triangle* 106

Sebekin S. A. The Necessity for Deterrence Doctrine Strategy
Elaboration in the Environment of Growing Cyber Threats
(the Russian Experts' Views).

The author analyses various Russian experts' views on the deterrence doctrine conceptual applicability to cyber conflicts, their perspectives, and issues encountered. The reasons why cyber weapons undermine the settled strategic stability and lower cyber deterrence effectiveness are discussed here. Therefore, the author recommends developing an international cooperation and a national doctrine dealing with the matter.

Keywords: *cyber deterrence – cyber space – cyber security – strategic stability – nuclear deterrence – cyber weapons – Russia* 122

Economy

Bitkov V. P., Manuylov K. E. The Sanctions' Impact on the Russian Financial Market.

The article examines the development and the current state of economic sanctions, directed against the Russian companies and entities by the USA, the EU, and other countries. The focus is on the sanctions' impact on various Russian financial entities, the financial market as a whole, and its certain segments.

Keywords: *economic sanctions – financial market – financial resources – external debt – currency exchange rate – bond market – Russian companies' IPO* **137**

Larin O. N. The Promising Areas for India's Transport Infrastructure Development and Russia's Strategic Interests.

India needs to cut logistic costs to maintain its high economic growth rates. In that regard, complex programs of infrastructure modernization for various types of transport are under way. To expand economic cooperation with various countries of the continent, India takes part in cross-border transport corridors building. However, India-China increasing geopolitical tensions take a toll on their commitment to mutual transport cooperation with the Indian Ocean rim countries. Russia, on its part, could increase export shipments to South Asian countries via the international "North-South" transport corridor.

Keywords: *transport infrastructure – India – Caspian region – Indo-Pacific region – South Asia – transport corridors* **156**

Lipina S. A., Lyzhin D. N. The Green Economy Sectoral Management: the European Practice and Russia's Opportunities.

The article observes the cutting-edge European practice of the green technologies development as a key area for innovations. The European Union's strategy for public management of the green economy sectoral stimulation are analyzed here. The authors reveal characteristic and distinctive features of the modern Russian eco-innovations governance. They propose recommendations for its improvement basing on the cutting-edge European and other foreign practice.

Keywords: *Green economy – eco-innovations – the European Union – public management – public support* **181**
